

Linux Software

Basic Shell Commands

Basic Shell Commands

Listing the most commonly used shell commands.

```
> df
```

Will show disk free

```
> du -sh
```

Will show disk usage from your current location, recursive

```
> ll
```

Long list of folder contents

```
> egrep 'wp-login.php' /usr/local/apache/domlogs/* | grep -v ftp_log |  
awk -F : '{print $1}' | awk {print $1}' | sort | uniq -c | sort -n
```

Used to show how many times wp-login.php has hit the domain access logs - change the wp-login.php to whatever you are looking for.
